Naomi Soyinka

JUNIOR FRONTEND DEVELOPER

Lagos, Nigeria | soyinka.naomi00@gmail.com | Open to junior frontend roles & internships

SUMMARY

Junior frontend developer who traded a conventional path for six months of intensive, hands-on coding at kode10x. Developing skills in React, TypeScript, and Tailwind CSS to build clean, accessible interfaces. Brings fast-learning momentum and a pixel-obsessed eye for detail to every project, and is looking for a first team to grow with.

EXPERIENCE

Frontend Development Trainee — kode10x

Jan 2025 – Jun 2025

- Completed a 6-month intensive focused on frontend fundamentals through daily practice and code reviews
- Worked through 2 UI exercises covering layout, state, and interactivity
- Practiced pair-coding sessions with a cohort of fellow learners
- Currently building a multi-page pastry e-commerce site (SweetBites) as a personal practice project

Independent Practice — Self-directed

2025 – 2026

- Currently recreating a landing page pixel-by-pixel to build fundamentals
- Learned responsive design, accessibility, and semantic HTML
- Working on building a consistent, well-documented GitHub commit habit

EDUCATION

kode10x — Frontend Development Track

Graduated 2025 · Focused 6-month coding intensive covering modern web development and real project workflows

Secondary School Graduate

Completed 2024 · Strong record, especially in Mathematics and English
